

Lab Assignment 1: Flowchart and Java Programming

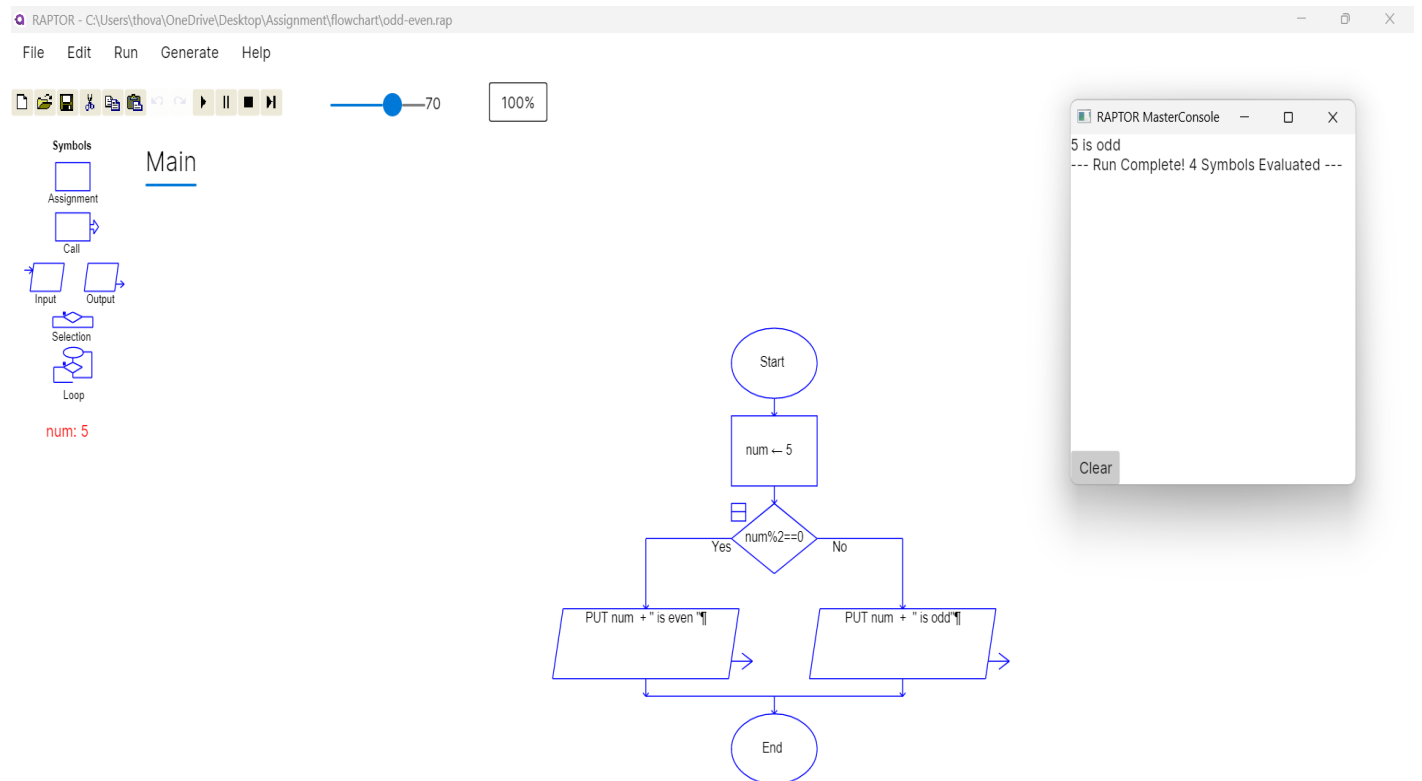

1. Check Positive Number

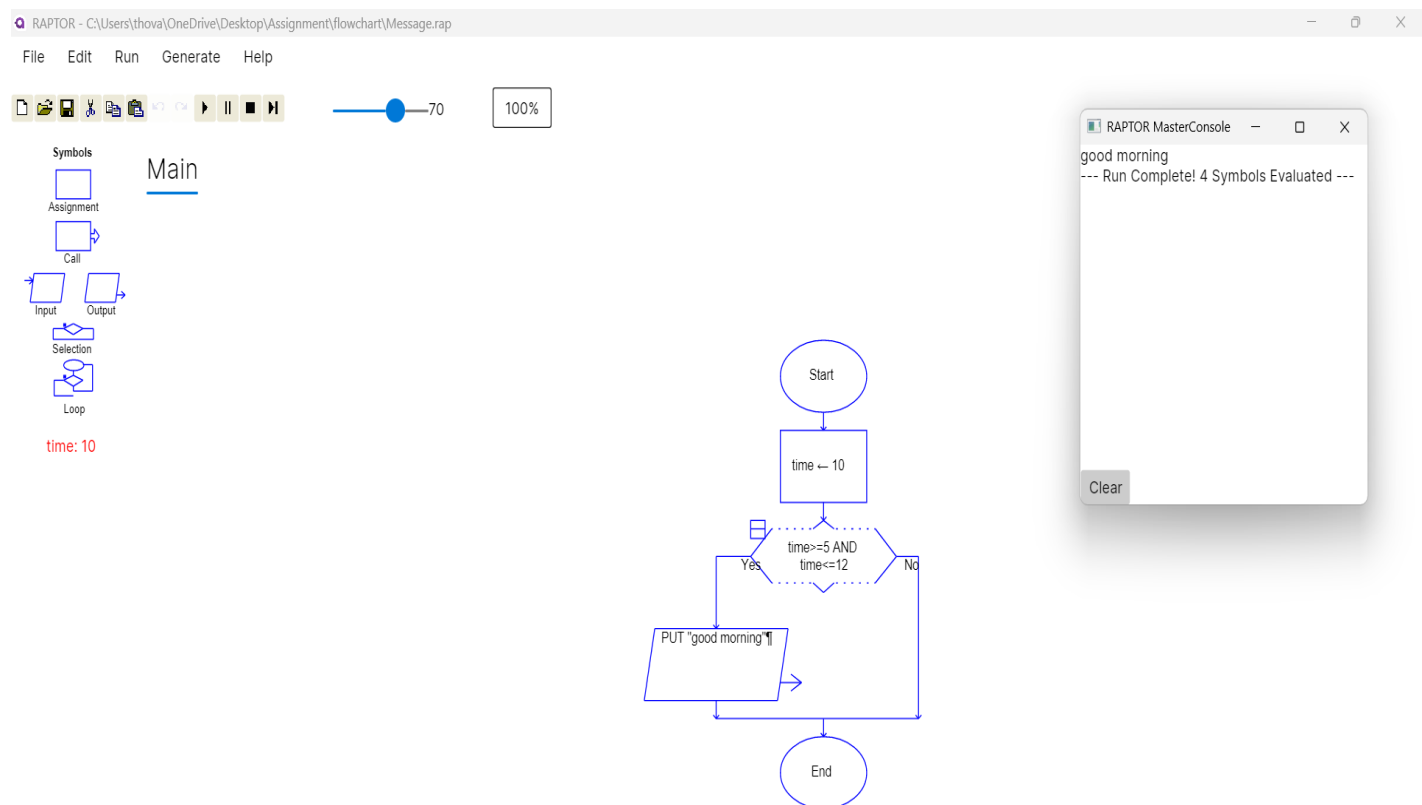

2. Check Negative Number

3. Check Odd or Even Number

4. Display Good Morning Message Based on Time

5. Print Area of a Square

The screenshot displays the RAPTOR IDE interface. The top menu bar includes File, Edit, Run, Generate, and Help. The left sidebar shows the 'Main' symbol and a list of symbols: Assignment, Call, Input, Output, Selection, and Loop. The central workspace contains a flowchart for calculating the area of a square. The flowchart starts with an oval 'Start' node, followed by a rectangular process node 'side ← 5', then another rectangular process node 'area ← side * side', then a parallelogram output node 'PUT area', and finally an oval 'End' node. The RAPTOR MasterConsole window on the right shows the output: '25' and '--- Run Complete! 5 Symbols Evaluated ---'. The bottom status bar shows 'side: 5' and 'area: 25'.

6. Print Area of a Rectangle
